

Video Game Club is an interactive club where students can gather and explore the history of video games by having hands-on experiences with a wide array of vintage and modern console video game systems. From sports games, strategy games, and team games, students have access to console systems going all the way back to the Atari 2600 (1977 release date) to the cutting-edge technology of the latest generation of consoles of today in the Xbox One S. A number of different console systems and hundreds of video games are available at each meeting.

Video Game Club will normally meet from 7:00 to 7:40 AM on the 1st and 3rd Tuesdays of each month (calendar will change slightly due to breaks).

Sign up will close on Friday, 9/6/19. At that point, depending on the number of students that sign up, groups will be created, and a club roster will be posted on Mr. Oldaker's door (Dean's Office) and communicated via email to parents. Due to the interest in this club, club members will only be able to attend ONE regular meeting per month. This will also be communicated to parents via email, along with a calendar of meeting dates.
